

# STIMPLUS<sup>+</sup>

KELP BLUE BIOTECH

---

BIOSTIMULANT made from 100% GIANT KELP

- + STIMULATES YIELDS
- + IMPROVES CROP QUALITY
- + IMPROVES RESILIENCE TO CLIMATIC STRESS

Batch Number: .....

Expiry Date: .....

1L

# RECOMMENDATIONS

STIMPLUS+ is a soluble biostimulant suitable for foliar, soil and transplant applications. It works in synergy with the existing nutritional program and can be mixed in a tank with most of the agricultural inputs and plant protection products commonly used (preferably tested beforehand). Preferably treat in the morning or evening.

## + FOLIAR APPLICATION METHOD

As a foliar spray, STIMPLUS+ should be agitated and then diluted to 0.2 to 0.5% in water. Notes: Applications can be made at 2 to 4 week intervals throughout the growing season.

## + GROUND APPLICATION METHOD

Soil treatment with STIMPLUS+ can be done by mixing it with the soil fertility program, by spraying it directly on the soil, or by using irrigation systems.

## + TRANSPLANTATION APPLICATION METHOD

Before or at the time of transplanting, treat the roots with a 0.2 to 0.5% solution of STIMPLUS+.

		APPLICATION PERIODS	DOSE/HA/ APPLICATION	NUMBER OF APPLICATIONS
VEGETABLE CROPS	HARVESTED FRUITS	<ul style="list-style-type: none"> <li>Planting (soil)</li> <li>Repeat every 21 days</li> </ul>	2	4-5
	HARVESTED LEAVES AND STEMS	<ul style="list-style-type: none"> <li>Planting (soil)</li> <li>Repeat every 14 days</li> </ul>	1,5 - 2	3
	HARVESTED ROOTS, TUBERS AND BULBS	<ul style="list-style-type: none"> <li>Planting (soil)</li> <li>Repeat every 21 days</li> </ul>	2	3 - 4
FIELD CROPS	CEREALS (wheat, barley, oats, sorghum)	<ul style="list-style-type: none"> <li>Planting (soil)</li> <li>Stage 2</li> <li>Stage 10</li> </ul>	1,5 - 2	3
	VEGETABLE	<ul style="list-style-type: none"> <li>Planting (soil)</li> <li>Between v4 and R1</li> <li>R5</li> </ul>	2	3
PERENNIAL CROPS	GRAPE / VINES	<ul style="list-style-type: none"> <li>Foot from 5 to 10 cm</li> <li>Foot of 25 to 30 cm</li> <li>5 days before flowering</li> <li>Fruit set: berries of 2-3 mm in diameter</li> <li>Veraison</li> </ul>	2	3 - 5
	BERRIES AND SMALL FRUITS	<ul style="list-style-type: none"> <li>Planting (soil)</li> <li>Pre-flowering</li> <li>Beginning of petal fall</li> <li>Repeat every 2-3 weeks until the end of the harvest</li> </ul>	1 - 2	4 - 6
	FRUIT TREE (pome fruits, stone fruits, citrus)	<ul style="list-style-type: none"> <li>Between flower buds and full bloom</li> <li>Falling of the petals</li> <li>Setting</li> <li>Small fruits</li> </ul>	2	4

## COMPOSITION

Aqueous concentrate of cultivated  
*Macrocystis Kelp*

## INDICATIONS

- Store in a cool, dry place away from direct sunlight
- Use preferably within the season - or within 2 years of purchase
- Waiting period between the last application and harvest: 14 days
- Keep out of reach of children and pets
- Do not inhale
